

Did you know that: Penn Waste now accepts single stream recycling?

What is single stream recycling?

Single stream recycling means that all recyclables can be combined. As long as your item meets the guidelines below you no longer have to sort and separate them before they are picked up.

What happens next?

1. Place your recycling bin out for collection on your scheduled trash pick up day!
2. When placing paper products in recycling bins with other recyclables, be sure paper is covered by heavier material so it doesn't blow away!
3. Penn Waste will accept any size of cardboard if it is flattened and loose pieces bundled.
4. Check out the list below to learn how to recycle successfully.
